The Cold War was a massive clusterfuck, with Europe being a major "enemy" to the United States as they stayed behind the scenes and watched with horror.

The Athenian Sea League is set in a low fantasy world where all the legends and myths from greek mythology are true. And in it's current form the Sea League is a collection of city-states, oligarchies and petty kingdoms led by a triumvirate of it's three most prominent member states: mighty Athens led and represented by it's Archon Eponymos Pericles, "Father of democracy", brave Macedon led by Perdiccas III "the Wise" and represented by a court official by the name Pausanias and fearless Crete which in itself is a union of Cretes two most powerful nations, Pefki and Messara which each having to share one representative, said representative being Podarkes.

Русский? Пиши в сообщения, расскажу тут что да как. Русские-вперёд!

Nationality is to the Right what they say gender is to the Left.

In a world where the Spartacists won in 1919 and Trotsky achieved his world revolution, Russia's minority dumping ground in the Far East is undergoing an internal revolution. Led by a sly artist-premier and his technocratic posse, surrounded by a salacious secretive Civil Servants' society, factionalist scheming, and (literal) backstabbing.
