Fuck you YouTube/UMG.

Figure out how your browser uses proxies, and find one that works. It's not too hard in Firefox.

I don't use Firefox, I use Chrome. And I'm too lazy to figure out anything.

I've had the same childhood, so it happens to me too once in a while.
Try this to purge your mind of the symphonics:

No, that album was horrible imo, Love Is Blasphemy was the only good one. :/ Seems like I only like (can even tolerate) the songs I used to like, but not new ones. And even the old ones are getting "worse" as days go by. Symphonic just isn't my thing... Iced Earth's Gettysburg trilogy being the exception.

I don't mind some songs by that band. But you're mistaken about symphonic black metal being in the symphonic genre, which you seem to have been implying. Symphonic black metal is part of the black metal genre. It's black metal that happens to be symphonic, so it's not really 'symphonic symphonic.'

Because Hurde mentioned thrash elsewhere, I had to search for some. This one has a hint of a gothic element to it. That's probably why I like this thrash.

I know symphonic black metal is sub genre to black metal, not symphonic metal. It's just that my least favorite black metal

songs/bands happen to fall into that category.
