- overly detailed military
- part of NATO, EU, or IC equivalent(s)

I wouldn't call this an MT liberalwank, but this seems to be the most applicable to my nation, so...

- Nope! Just a good ol' grass field with a bear and a star over it
- I still don't even have a military factbook...
- Nope
- Yes, but in a small, strictly-deterrent capacity
- I think once I finish my overview factbook it's going to look a lot less surface-level, but even now, actions can have some p intense consequences...
- Ah. Completely guilty of this one.

Tricolor: Technically guilty, but this isn't the standard three stripes in one direction so half I guess

6 parties: Nope, the main parties here are conservative, liberal, and social democratic. There's quite a few minor parties but neo-nazis, communists etc. aren't in the legislature.

Overly detailed military: I wouldn't say its overly detailed. There's just info on the structure, equipment, and overview of each branch, so no Part of NATO, EU, or IC equivalent: No, closest thing would be the alliance with Australia and New Zealand

Nuclear weapons: Yes

Surface-level analysis: No

Doesn't use NS stats: Of course I don't use NS stats, they suck

You know I'm kinda offended how much this is accurate for me lol

- Not true, but to be fair "Progressive" "Classical Liberal" "Just fucking Racist" "Libertarians" "Greens" "Socialists" "Nazis but pro-welfare" "Nazis but anti-welfare" is worse lol
- I'm... working on it? It's not gonna be all that detailed though
- Surprisingly enough, none of them
- Yes
- Kinda? There's probably deeper stuff to analyze but that's mostly not done on purpose

alright i'm going to do this:

- nope, gandoor's flag ain't a tricolor or a cross. it's red with yellow stars cuz left-wing (and didn't want to just copy some real left-wing flags or whatever)

- if you just count parties in the legislature, we got four parties. (the two major parties being a democratic socialist party and a social democratic party + the two minor parties being a right-libertarian party and a social conservative party), if you include the parties without representation too then we've got a total of twelve parties with their ideologies (excluding the already mentioned ones) being: gandoor's home-grown auth-left ideology, neo-fascism, federalism, nationalist marxism-leninism, classical liberalism and social liberalism, anti-revisionist communism, a second social conservative party, and a separatist democratic socialist party that only operates in one part of the country

- i don't even have any fuckin pages for gandoor's military on the gandoor wiki lol. it's like one fuckin paragraph on the page about gandoor and that's it.

- nope, we ain't even in the north atlantic or europe, we're in the pacific ocean lol (and we're also not part of any IC-equivalent alliances or whatever)

- NOPE lol, goes against gandoor's canon to have nukes

- idk is gandoor's analysis surface-level idk i've been working on this lore in one form or another basically since i joined these forums back in december 2010 (sure i'll admit the modern lore is a lot different than it was back then but you can still see the seeds of the current shit even back then) so i'd hope it ain't surface-level

- i mean yeah ive talked about this before, my nation would be completely ridonk if i used the ns stats like seriously lol

- MILITARY IS SUPREME. Tons of factbooks and shit about their military (which is, of course, always the greatest military power imaginable) and little about anything else

- Mostly true, though the nation isn't that big so its more believable.
- Nah, Flash Gordon Hawk Men. If anything the slavery used is the same as the US prison system. I don't think they handle radioactive materials though.
- Never made threads to oppress my people. The slaves are usually convicts from other nations, so they don't count, nor do I flaunt them.

Tbh, what's with the hate over military? I don't get it. I like writing up military stuff, it's fun.

These checklists just seem like they are written by someone who is either jealous of one's creative ability in that regard or an actual, IRL pacifist who can't fathom the concept of a military.

I'm serious, if we asked for more checklists for any other stereotype, I'm willing to bet money that there's going to be at least one section that has a laser focus on military factbooks and either their sheer size, quality, or quantity.

it's also just an eyesore to see the 25 factbook limit containing like 20 factbooks of military. especially when the information in each factbook is so little that they could all just be combined into one or two factbooks.

In all honesty, in my opinion I find it more enjoyable to read about culture, political structure, etc. Military focus is just overdone and mostly a "look at all these huge numbers I come up with with!"

Yeah, I think this is one of the reasons why F7 posts should \*still\* not contribute into your post count. I mean, you can just post spam all over the thread and get a boost in post count. Still, the majority of my posts are in F7 and there's sometimes effortposts scattered over the place.
