Monkey 694 discovered a long-abandoned nuclear power plant in the middle of a hiking trip in Monkeania, in the year 1994. He died afterwards of radiation 8 years later. He didn't know why the gods gave him such a long period of time to think about his life choices that led him into such a disastrous hiking trip.

I'd say this nation is about 85-90% representative to my beliefs

About the only difference between my nation and beliefs is that free markets are effective in a select few situations, and the compulsory organ harvesting is kind of screwed up

I'm probably in the minority, but I actually pay more attention to in game stats than to roleplay
