we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I wish they'd stop singing about space archers and go back to Conan the Barbarian. Shit was radical.

Those are two VERY different songs that aren't related at all save for having the same title.

I'm currently listening to my Minecraft "server" humming in my entertainment center, the sound of "[Me Gusta](#)" playing on my entertainment center's quad-channel speaker setup, and the wind battering against my windows as my town receives the first of many high-altitude snowstorms.
