Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a

2/10, doesn't seem evil

I felt like going on a power trip, and thought to myself "Hey Ell, what nation/faction would be possibly the most overpowered one you could create?" And somewhere in my head the name "The Combine" screamed. So this is exactly what I'm doing! Pray that the Union doesn't notice you, because it probably won't.

Not sure what it's supposed to be.

NS Stats shamelessly not used.

Say it with me: This is **NOT** a global Earth government. Our UN isn't even particularly powerful. (Our NATO on the other hand is large and powerful though.)

PMT with very little space presence.

Anyone who believes in magic is labeled a terrorist here. You got that, you terrorist?
