Monkey 1148 investigated the mysterious assassination of Monkey 1185, and would eventually discover that Monkey 1 was somehow behind it. He would disappear one morning, never to be seen again...

Monkey 1145 stayed up for days plotting how to be the one who killed off Monkey 1. Suffering from exhaustion, he collapsed and impaled his forehead on a pencil.

monkey 1141 was made the director of his nation's biological weapon research program. The government demanded that he use monkey test subjects, and the weight of his sins became too much to bear. Feeling Defiant, and emboldened by the death of one recent subject, he defected and fled the country. The science team did not share this rebellious spirit, however, and hunted him down all the way to the border. They stopped chasing him after he crossed, and he was curious as to why. A short distance down the road was a derelict sign. It read "Monkey Co." in old, weathered writing. The monkey had an odd feeling that he knew where this was going. He was proven correct when an entire factory fell on him. From the sky.

Monkey 1138 entered a room that was completely filled with Legos, and walked in. It felt as if the monkey had been stepping on Legos, but the pain was all over the body. The monkey, unable to bear the pain, died soon after.

Monkey 1131 hacked the electrical power grids in Texas, hence its failure in the winter and summer. Not the only one culpable though.

Monkey 1129 passed out from how dark 1130's death was, and the fact that 1133 and 1132 were missing, and happened to fall right off a diff edge. How unfortunate.
