Only real Boris song I've listened to enough long enough to know I liked it (and I really enjoy that song). From what I can tell, I think the girl needs to sing more often, because I liked the songs with her singing better.

Boris-Hope.

Wata is good on Altar but I prefer Takeshi and Atsuo.

Yes! I Am A Long Way From Home, Mogwai.

it doesn't get much better than this

ooooops messed up the quotes

I just need to listen to more Boris is all. I played it one night...but yeah, I was asleep, so. I'm just not a huge fan of most Japanese singing as a whole, so that might be part of my problem.

Middle Class Rut-Lifelong Dayshift.

I don't really mind the vocals anymore, but I mostly dig the musicality of this band. They seem to have some pretty good music talent, and variety with their songs compared to others. Like this is completely different then New Low and Busy Bein' Born, along with Are You On Your Way. It's more....hardcore? I dunno how to put it. Though Busy Bein' Born can be pretty "Hardcore".

I guess you might like them Oterro. I don't really know.

Yeah vocals have never been my favourite thing about Boris. My two favourite albums by them are Flood and -Feedback- they're both metal but not horribly inaccessible. Ya might like them.

What album is it? I'll take note and hit it up in a bit.

Trailer 5, Mono & World's End Girlfriend. Pretty good stuff but I do think I prefer WEG alone, never listened to Mono before.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

What album is it? I'll take note and hit it up in a bit.

Trailer 5, Mono & World's End Girlfriend. Pretty good stuff but I do think I prefer WEG alone, never listened to Mono before.

I discovered the Mono & World's End Girlfriend thing yesterday. It sounded very mellow but really nice as well. I only listened to one song though. [This](#) is still my favorite Mono song I've payed enough attention to, and the first one I've heard.

I don't think those 2 Boris songs are actually on Spotify...Oh well, I'll find them at some point. A lot of Boris is on Spotify though, despite the fact most Japanese bands don't seem to actually BE on Spotify.

Also, the Middle Class Rut album is No Name No Color (Their only album to date as far as I know), and my favorite song is probably still [this](#) one. It took me a while to get into this guys (because it's not usually my type of music), but now I really dig this song, and don't mind the vocals as well. These kinds of vocals I don't tend to care for, but their musical skills is what I think drew me in. And I just got used to the vocals. Most bands with vocals like that are just meh over all.

## [Pyotr Ilyich Tchaikovsky - Symphony No. 6 "Pathetique", Op. 74](#)

Another 50 minutes and I'll be done with what I've set out to do today, which has been listen to all six of Tchaikovsky's symphonies, one after another, from start to finish.
