Center-left, with plenty of support for social programs.

That reminds me... I've got to take the political compass test this month...

I never learned Chinese (and given my attitude towards PRC in general will probably never learn), however, I do learn Japanese which borrows a lot of kanji from Chinese, hence the name.

I think the word 'Kanji' is the Japanese equivalent to 'Hanzi', but is most thought of as the Chinese letters in Japanese, while Hanzi is only Chinese.

Hello! While I appreciate that you may have mistakenly mistook my post for a 'double post', and therefore would have correctly according to Forum 7 protocol 'skipped' my post, a closer inspection of it would have revealed that in fact it was not and the previous post was a /skip. I hope that you will keep this in mind and double-check in the future before skipping people. Have a nice day!
