The mods need to add an 18+ only section to this site so all us adults can talk about adult topics like: "What flavor oatmeal is the best?" and "Why does my goddamn back hurt so much?"

Yeah sorry Kiu but the ANGLO-SAXON WARRIOR and CELTIC WARBAND are in realms beyond your puny yankoid understanding of civilisation. All you need to understand is that the funny men with weird accents are teaming up with the other funny, weird-accented men to invade the wet place up north.

If we're still talking about plagerism and accreditation. We should list the entirety of contributors to bbcode every time we post using that markdown language. Unfortunately I don't know who created it or who improved it.

On a unrelated side note. I'm looking for royalty free MMD models that look like generic male soldiers in a contemporary conflict. The art style away from the typical bubbly anime style or at least toned down.

But I'm unfortunately still just an undergraduate student, though if I were better at applications and deadlines I might at least know whether being a grad student is in my future. 🤔

For a diché, though, I remember a long while ago that reptiloid nations were really common (I feel like this was probably around 2013 or so), though I guess this is probably just an overblown memory of one overenthusiastic user who just really loved dinosaurs!

Valentine Z is the very, very first nation for me and I have not been ever around before 2015. The "exception" is the Issues Megathread where it showed that I was around since 2009, but that was because I inherited that thread. ^^

All in all, I feel that this was the most optimal time for me. I have been here long enough to call myself experienced and now just someone looking for a job after graduating with a Com Sci degree. On the other hand, I would really hate to see what sort of stuff I would pull off if I found this site in 2008 (when I was 13, the minimum age to be on the forums here).

So end of my life story in a cliché thread, I suppose! It's been a wacky 5 years, and counting.

Yeeeeeep. Giving things 100% is great and all, but what happened to moderation in all things... ^^;

Hm, this might inadvertently hint at a cliché. At least in my own writing, I tend to give a lot of focus to characters' work but not nearly so much focus to their leisure. My only exceptions right now are Haruto and Freddy. Oh, and Staley, weirdly enough. This could be an interesting direction in which to flesh out some of the cast.

I found this horrific site back in 2017 or something when looking for a fantasy map maker in school because I was bored. My first nation was banned along with my second one for some dumb stuff I said to people. I came back to the site properly in 2018 with a proper successor to my first nation, and I ended up using that nation until 2020 when I switched to one of my other alts for RMB RP. I only actually made a 'forum nation' when I made L-453 earlier this year but even that was more of a test given that I actually want to develop this country instead now.
