Also, "colourisation" is the correct spelling. It's the spelling of the chads. So deal with it.

the strongly worded letter was the threat of nuclear annihilation if the Persians don't stop setting Arab oil fields on fire for fun and profit from five Great Powers, Persia going "bet?" with their own nuclear stockpile, and the Great Powers going "ok also we will stop buying oil from you" /skip

I commend genuine anti-summies like Buhers (RIP) but not the emerging radical anti-summies (RASs) who drop a /stillme even for responses with basic effort. Both summies and RASs will be voided when they show their true colours, be that through a /stillOtherNation or a /stillme.

I love this lore here, makes me feel I'm witnessing a war that will change our times
