United Byzantium censors bob land on social media and censors anyone who calls them an independent state

The island of the Galapagos and the main power of South America controlling the West of South America. Militaristic and authoritarian with a troubled past and an uncertain future with stability at an all time low due to a lost war and unpopular occupiers.

I mean he's trying to make himself have some bad event on him but it's not gonna help his reputation, or should I say, increase his reputation as a summer-poster.

Bobland again decides to yolo it and manage to take a piece of Western Africa (idk if it's Byzantium lol).

Western Africa is controlled by the Squirrel-Gerbil Confederacy, which controls the Sahel countries and the Maghreb countries.

Greater Paraguay expands, conquering Eastern Brazil. Recife is the last Brazilian outpost, currently in the hands of the Boblandians. It will be the spark that lights the flame of war between the fascist Asunción Pact and the democratic Algerbil Alliance. Fascist Plymouth takes New BEDFORD and Rhode Island, and in response Bobland annexes (willingly) cape cod.

The capuchins respond swiftly to the Catalonian conflict, with the head Capuchin (designated Capuchin-Alpha) making an impassioned speech on system-wide broadcast which was also sent by messenger ship to CCA colonies in the Trappist, Gliese, and Alpha Centauri systems.

Arriving just in time to help the pan-Martian navy, the truly massive Capuchin First Fleet descends on the near-Earth space battleground. Together, the CCA

and their allies push the Catalonians out of orbit, gaining complete orbital supremacy of the planet. Now, the next phase of the war begins.

The skies over Catalonia darken as orbital bombers drop millions of conventional bombs on Catalonian military sites, taking care not to hit civilian targets. With the help of massive advancements in cyberwarfare since the Polity expanded beyond Sol, Catalonian digital was severely crippled, hampering Catalonian ability to stand up against the alliance of nations that had formed against it.

Meanwhile, in orbit of Mars, a joint Capuchin-Catgirl strike fleet surrounds the captured lunar moons, advising them to lay down their arms and offering them integration into their various extrasolar colonies.

Capuchin-Alpha is a bit insulted by Glyde McGoo's strange new law in the Slime Republic, given that his name has two Hs. He kindly requests that the law be repealed, offering many bananas in return.
