Fair to point out I've seen some NS accounts who're basically a real life nation.

There's a reason I don't use AI in my canon and that's because they tried to fucking kill us all.

Having an AI controlled space-fleet means that you have a lot of an easier time figuring out logistics, as you now don't have to think about stuff like food or oxygen.

This has probably been talked to death but:  
Wars where it is just a bunch of large-scale fighting with no mention of individual battles, people, or groups. Like where it is just "*Faction A takes X, Faction B takes Y, Faction A fights Faction B at Z*".

I've done this before in the past a bunch, but I at least try to mention more things. I have a rule where when I RP a major war there should be at least 1 battle or person or event that could be made into a Sabaton song.

**Description:** I'm an MT Sweden under a fictional far-right ideology known as Holmism.

Basically Modern Sweden + "*Folk, I gevär*" + Lev Gumilov + Rampant Factionalism + Political Tension + Swedish Neo-Nazism + Sprinkles of Wacky.

I'd rather not go into detail. If so then I'll make it like Violet Evergarden and vaguely describe the events of the battle and focus on the human aspect. The whole coing into detail about small unit tactics and larger regiment and division/fleet tactics would seem like a wank especially since in war there is a lot of things that can go wrong and many things that could be unexpected.

Oh no, I don't mean like going into detail about all of the forces. I was talking about those people who just list off what areas were taken and stuff like that. They never have any stories about the war.

I also give a vague description of events but I occasionally have an RP in the perspective of someone in the war, I also will tell stories or other tidbits of events sometimes.

I would love if more people gave descriptions of what is occurring away from the battle in civilian life.

Not that I'm calling out anyone specifically, but the "Italian Independence War" thread in II ticks so many of the boxes for NS cliches. But the one that annoys me the most in that thread is genocide for the sake of genocide. Why do NS RPs always have to end in atrocities against civilian populations?

Don't remind me of the Arma 3 community where a good 75% of the "milsim" communities are just civilian killing meme groups.

I really feel like if you're going to RP war crimes you should be treating them with some sort of gravity and not just "le funi civvie massacre xd remove kebab serbia stronk amirite"

I'm just downloading arma 3. What group actually commit genocide for a reason? Second is there a Nato/UN civilian killing meme group? Is there a dynamic in the game where recruiting from the population as insurgent is easier after the fact of the crime? Is fighting in civilian attire weighted the same as genocide in arma?
