Monkey 5053 was put in the grinder.

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.

Of course, this information is of absolutely no consequence to anyone.

Edited, but I was more concerned with the fact that you said 4449 as opposed to the next monkey (5049). That often confuses people and causes monkeys to be skipped or duplicated.

Monke 5048 traveled back in time to orchestrate the death of monke 10,000. This resulted in a timeline fork, one path of which is the current thread, and the other being a monke utopia with 0% death rate and post-singularity monkAI technology. the monkAI developed devices to see and travel through time so that they could plunder apocalyptic/uninhabited timelines for resources, and upon learning of the circumstances of their universe's creation by the actions of 5048, visited temporal justice upon him in the form of an Contained Area Temporal Hyper-Fission Warhead.

Monkey 5047 was visited by someone from the future. That someone tried to shake his hand, and the monkey disintegrated.

Monkey 5046, realizing that there were only 1560 posts but 4954 monkeys, and jealous of the survivors, went on a killing spree of the monkeys that survived, and desecrated the graves of the monkeys who were "skip-a-few"-d. But as it turned out, one of them was Hitler, so neo-Nazis caught him in the act and killed him.

Monkey 5044 was investigating the deaths of the previous monkeys when he was confronted in a dark alley by a dark figure who "advised" him to stay out of it. Like any good investigator, he ignored the threat. He has not been seen or heard from since.

Monkey 5041 was killed by Col. Mustard, in the Billiards Room, with the Candlestick!
