"Though perhaps Xu Yunli and I don't agree on everything, I find her journey from adult entertainer to Chief Executive Officer an impressive and wonderful story. Besides her inspirational life story, she seems like she has a wonderful personality, a joyful outlook on life, and is much beloved by her people. I would love to get together sometime with her and her spouse; perhaps for cocktails with my spouse in the warm evening sun; too bad my children are adults now, it would have been nice to organize a group playdate sometime, though perhaps we would have to become better friends first." - Sir Steven Attenborough, smiling joyfully at the possibility of a new friendship.

"We read his book...we found it that it was closer to a journal of ramblings rather than a book, but alas we should've known better. Attenborough is a republican fool as many organics are. It really does irk us to see so many organics reject our gift of assimilation. Perhaps it's because it usually includes being absorbed into the Imperium, but sometimes we legitimately wish to uplift such pained creatures as Attenborough."

"Freedom is like a drug. Where its consumers, the individual citizens, may think to themselves that they have authority and agency to determine the extent and dosage of this drug, it is the suppliers that determine how much these citizens get and the price to which they pay for this freedom.

Yet the Paramount opts to cut its subordinates off of this drug altogether. The withdrawal that his citizens experience from a drug so strong requires him to implement much more restrictions which impede on these freedoms even further, creating a vicious cycle. Again, a certain permissiveness for this freedom must be allowed for and balanced out with an equal proportion of authoritativeness such that the negative effects of an excessive freedom will not be borne by society."

Many years ago, atom bombs flew across the Earth like metallic, deadly birds that would bring plague and destruction all over the globe. A nation that has historically stood in the face of adversity, New Spiedska finds herself re-born; However, to her dismay, her longtime sister-in-arms, the United States of America, suffered a much worse fate under the tides of anarchy and balkanization. Despite the loss of her ally, she will not falter; for she will ensure
