"Spexico" ahahahahahaha fuck that trope with all due honesty, fuck that trope. at least make it Toros y Flamenco if you're going to set your work in Spain and have no idea about how it's actually like. although admittedly the thought of a "*Banana Republic*" is not! Almería is funny. like, ah yes, let me be El Excelentísimo Presidente of a bunch of dunes. actually, that's a new nation idea right there. República Bananera de Almería/Murcia, anybody?

Race According to Benjamin Franklin

- White
- Swarthy
- Savans are white but other
- German are swarthy
- Tawny
- Classification Unclear

Swarthy means Italian kind of black.

US-Americans not knowing how geography or Ethnicities work seems a rather universal constant

And this is where you get the stupid 'ITALIANS USED TO BE CONSIDERED NON-WHITE IN THE UNITED STATES' bullshit.

Spoiler alert: Italians (along with various other groups people sometimes cite as having been 'non-white' in the past like the Irish and Jews) were always considered white here. Sure, they may have been considered 'lesser' whites but they were still considered and treated as white by law and custom.

1. Yup, it's them conflating the penal transportation and indentured servitude of Irish people with the hereditary chattel slavery of Africans.

2. German slaves are buy 1 get 1 free until next Wednesday.

I think that's a good idea. I try to put this into practice as much as I can.

-For instance, my nation's economy was garbage until it pulled a Deng Xiaoping.

-It was militarily inferior to its neighbors 60 years ago, having to strike a deal with a much larger and scarier nation to conquer another large and scary nation (for complicated reasons of interstellar "geography", we were being hella exploited).

-In that war, we committed war crimes that genuinely shocked and appalled the public.

-That led to a push to demilitarize later on, which was a stupid decision.

-The present war may have been averted if the current leader had tried diplomacy instead of shrugging it off as futile.

-The country is in a hopeless situation where its only defense is to exploit a chokepoint in the wormhole network. It can only buy time by continuing to defend that point, and by trying to intercept the enemy if they get here slower-than-light, see the galactography factbook. The only thing we can do is defend, there's no realistic chance of us reaching their capitol and winning for good. In the end, we will not win. The future looks something like the Xeelee Sequence for us.

I love the fact that there are still people who would report the same user (or the forum post) over and over and over. Losing collective minds over a pornspammer is still a tradition (and a cliché), eh.

Seriously, a single report is enough. If you see the pornspammer being reported, just let the mods handle it, however slow it might be. Pornspammers aren't known for subtlety, so of course they know.

The funny thing about the pornspammer is... They know that there are recent restrictions on age of nations with regards to posting images. They actually waited and remembered to come back after they are of a certain pop/age.

I am most struck by people who have to make the drama queen line like, "Oh no! I saw a penis! Now I won't be able to see this site the way I used to!", giving even more trouble to the moderator who has to deal with both the pornspammer and bring the reporting thread back to order.
