Spotify only has album 1 and 4 by Botanist

When albums have numbers at the start like they're a series, I prefer to listen to them in order...oh well.

Can't believe he's released 5 albums since 2011.

I'm pretty unusual for a black metallar, anyways.

This definitely doesn't fit more into your standard black metal, especially in the vocals. I had a hard time imagining the Ulver singer doing black metal vocals, though he is pretty diverse, and awesome.

Such a varied band. And great in all aspects.

Ulver-Soelen Gaaer Bag Aase Need

I can definitely tell the similarities in Norwegian and Icelandic languages.

Edit: Oh, there's the black metal vocal style I know better.

Garm is a great and talented musician indeed. However, after Nattens Madrigal, Ulver kinda stopped being black metal.
