Kronova is located on a peninsula, and a mountain range to its north separates it from the rest of the continent. Its territory is divided mostly by rivers, and interspersed with lakes, forests, and wilderness.

I found the speed at which the Germans propped up railroads all over their nation and to some extent their colonies to be interesting.

2289 A.D.

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

The time has come to make yet another nation. You'll probably recognize me.

The time period difference between the first prehistoric humans, and the first civilization, is a little too far apart. Nothing wrong with that, but seems like at least in their world, it took a little too long to have a civilization.

That's how long it took for civilization to emerge in North America irl. Humans first migrated from Africa 2 million years ago, but the earliest human civilizations (Egypt and Sumeria) only emerged roughly 5000 years ago.

Huh, so it is... I don't know why I thought that human civilizations IRL happened sooner. My mistake. 🤔

To be fair to you, I am going to do another one for ya.

Hmm.. "The nation is home to roughly 726 million people, and over 400 languages"

This one is also something I just learned now regarding your nation, and sounds like a multicultural and a multilingual place, a lot more than RL Singapore (4 official languages, along with perhaps at most 50 languages if you count the tourists). 🤔

That apparently some of their pages would actually be not available to be viewed ICly, without an usage of VPN, which could potentially land you in fines there - particularly the info about their leader. Also, it seems, that Oswald has changed quite a bit since last time - he has a military uniform now, instead of a suit, and moustache, which is rather grey, than previous brown color.

Section 1 In Commonwealth, freedom of speech is not a right, and someone must earn it through work, and contribution to the society. Besides that, criticizing government, both in internet, or privacy, is never a clever idea, and things like burning the flag, spreading forbidden literature, joining underground movements, taking part in protests, etc, will surely land the unfortunate soul in an underground dungeon at the least. In other words, it is not protected by the Constitution, and government has full rights to intervene.

Damn. 🙄

Not surprised though, your nation is a fascist conglomerate of states after all.

New York's Empire State Building has been renamed to Revolution Tower. Makes me think that they've probably renamed and/or defaced remodeled other American and Canadian landmarks to fit with the new socialist government.

Folklore and superstition continue to play a part in Kronovan culture and daily life into the present day. For example, wearable good luck charms are still popular with a small portion of the population, and the involvement of ancestral spirits in such things as overseeing that exchanges between families are fair and at least somewhat equal. It really is a well done factbook, and the concept of exploring cultural superstitions among a populace is something that definitely isn't done enough.

As it turns out, their universe is a weird alternate version of ours with different continents but an overall similar situation (I.E the Osean Federation giving me a US vibe whilst the Union of Yuktobanian Republics gives me a USSR/China vibe). Although for the longest time their world was kept at peace, despite the cold war, it's all starting to come to a head with the recent Belkans war (which the name implies a Yugoslav War-esc war... AKA not pretty) and the recent Ulysses Disaster, Ulysses is the Latinization of Odysseus, whom was the legendary king of Ithaca and helped Achilles fight in the Trojan War. What this implies, I don't know.
