Monkey 3297 spoke ill of Christianity and replaced Christianity in Monkeyland with sh*tty atheism and secularism. His head was spiked in a Christian revolution.

Hello, this is Korolk, a nation which partially uses stats.
Korolk is a nation based on an alternate Second World War where the Japanese were able to win the war, and get ahold of nuclear weapons.

Monkey 3295, the final (and soon-to-be shortest-ruling) CEO of the now-virtually defunct Monkey Co., was challenged by Saxton Hale to a fight to the death. He (3295) of course stood no chance and was pummeled to death. Victorious, Hale proceeded to buy what was left of Monkey Co. and absorbed it into Mann Co.

Monkey 3294 tried to avoid death by stabbing 3293 with a banana fashioned into a shank, but 3292 heard about his plans, and in Oversimplified fashion, killed him first.

Monkey 3291 wasn't in a bunker during the Molotov-1 nuclear explosion, which was so powerful, it could kill 1000,000 people.

Summary: After the Soviet Union tested their Molotov-1 nuclear missile on a field in Poland, the radiation spread through Europe, reaching Romania. The Ceausescu Era never happened and the RPR (Republica Populară România) Balkanized. When the balkanization began, the counties in the Timiș region and the land bordering the Mureș region united under one banner, one monarchy and one king (or queen).

M3288 invented a gun called the M3288. He was later conscripted to get rid of criminality, but in an ironic twist, was killed by a Caue Island insurgent who was armed with an M3288.
