New Man begins expanding his empire across the Eurasian landmass, stopping only at the tamil region, and releases the tamil kings, because no one invades the tamil kings.

Man, even with the same strategies as the British used, fails in his conquest of the Tamil Kings because they're already aware of his tactics. Using them against him, and crushing his army in the process. Through honor, they allow Man to leave with his life, but only under the vow that he "Never invades the Tamil Kings again." Because no one invades the Tamil Kings.
