AN: Their nation gives off cyberpunk elements. Either way, Neo-Manila is their capital.

So... two or more possible takeaways from this, to me:

140,000 B.C - The Grand Squid is born near the beaches of Colombia, according to Verse 1 Chapter 1 of the Book of Madai

I wonder what will happen if Gwen, or any other time-traveller accidentally squashed the Grand Squid, or something else entirely. Also that makes me wonder... if the Grand Squid is born, what about its parents, and its parents' parents, and so on? 🤔

Also on a takeaway that Squidism is a very nice religion and I see itself being in-line and being suitable for modern society. It basically tells everyone to be nice to one another, or bad deeds will be punished. On top of that, NO discrimination, that is neat!

AN:

So... I learned that they have problems with The Zergs? Hmm... I wonder if I can actually do a Zerg Rush on them? Now you are giving me ideas. 🤔

That would actually be fun if I met an active StarCraft nation portraying the Zerg, especially if they had the actual game.

The alphabet now has 31 letters, 6 vowels, and 25 consonants in it since the adoption of a new alphabet in 2033 after the Council of Soviets voted in favor of it in order to provide funding for a program aiming to reform English spelling to be wholly phonetic. In addition, there are 3 diacritics - acutes, circumflexes, and diaereses - which can be placed over vowels, and some consonants can have graves and/or acutes placed over them.

A variant of Xi's wife and a variant of Trotsky have become leaders of a HUGE communist country.

In a broken world after a disastrous WWII using nukes, AI and ethno weapons in 2058 that wiped out all humans but blacks, a group of determined merchants and their allies decided to stop the collapse of civilization. They established the Enugu League and later the Onitsha Empire. Under the guidance of leaders such as Joseph Ijeawele, Jessica Udene and Victoria Machie they struggled very hard to resist decline at all costs..

This year was 2091. The disastrous Teen Rebellion caused by Jonah Nyagura and Juliet Udene's disastrous education policies entered its eighteenth year. Jessica Udene, now the queen, was desperately negotiating with rebels. A daughter of a prominent business owner, Victoria Machie, just became the new Minister of Defense, succeeding Nyagura ally Emmanuel Nduka...

They are located in Mars, specifically the wastelands of the planet. The Crisis of 2174 effectively ended the UN's control over northern Mars. This, in turn, made Abalos practically independent, but with limited recognition.

The entire planet on which they are situated has been divided up between only five nations (well, technically four). Three of them appear to be totalitarian, and the last is an exiled subsection of the original US government.

What I found out: Khm, the amount of manpower, which they can wield, seems to be potentially infinite, and their army is mostly a mix of steampunk, and FanT, and their economical system is state capitalism, and they are essentially a micronation, with a government similar to medieval Italian merchant Republics. Huh, an interesting recipe for a nation.
