Monkey 292 ate a resurrected Monkey -1.

Monkey -1 did an Uno Reverse as he spewed around in the digestive tract though.

Monkey 291 watched the whole affair with a smile.

Monkey 291 was not actually smiling. A few weeks prior, it had stepped on a rusty nail. It thought nothing of it. About a week ago, it started experiencing some odd muscular spasms. This day, the Tetanus infection produced what would be the first and only episode of lockjaw that the monkey would experience.

290 killed monkeys 289-275, the reason?

He thought they were gonna kill him then commit suicide like all the other monkeys.

(He dies in a ironic way)

Monkey 290 was promptly arrested for his crimes. After being declared insane, he was taken to a psychiatric hospital... however he was left with his shoelaces....

yeah he committed suicide.

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Skipping AN because monkey 290 didn't die.

Monkey 290's murderous rampage was in point of fact a hallucination produced by the psychotropic drugs it had accidentally taken ten times the normal dose of. It also forgot to lie on its side.

The Coroner said the CoD was 'stroke', but nobody was fooled.

Fuckin' ninjas!

Monkey 289 tried to hold a sneeze in... but the sneeze could not be contained.

Monkey 274 was killed by monkey 272 because they realized that the world was going to hell and anarchy began to break out in the poorer monkey nations.

Monkey 289's death was confirmed not to actually be caused by 290 but it doesn't change the fact that the monkeys are dead (News outlet)

This entire thread is a massacre. There is no originality in randomly deciding to off multiple monkeys at once, and in such a trite way. Stick with one per post.

Decided to go off of Monkey 273, just try not to kill so many monkeys in one sitting in the future.

Monkey 273 saw the above argument between NZ and TCV and facepalmed a little too hard.

Monkey 287 tried to teleport and accidentally comaterialized into 272. Killing both in a gory display. For some reason, this made the universe more stable.
