He's definitely got something unique going for him vocally, and it's awesome

Apparently some other project by the singer of Tool, and it's rather sweet.

the OST to Link to the Past

it's ok, it does it's job

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
