The Monkey conspiracy is revived as the burnt corpse of Monkey 4889 has been found. Monkey 4840 needed to cover it up, so he took the burnt corpse of Monkey 4889 and put it in a shuttle. Just as the shuttle was about to detach and plummet into the earth, however, Monkey 4839 and 4838 shoved Monkey 4840 into the shuttle. Monkey 4838 sacrificed himself to ensure that the shuttle didn't launch properly, getting into a fight with Monkey 4840, and ending up in the shuttle, which fell only to land deep into the cave. Monkey 4839 is left traumatised.

TL;DR: Monkey 4839 is alive, but 4838 isn't, so the BN should continue as normal and discuss Monkey 4839, but then the BBN (Below Below Nation) will skip to 4837

Monkey 4838 somehow survived the crash severely injured and when he recovered he found 4839's body, as much as he wanted to see him again, he would have to kill himself, but he couldn't find the strength in him to do so. So he teamed up with 4837 and lived a life of crime. 4838 and 4837 plan to take the holy banana, a ancient relic passed down from king monkey of the monkian empire. They were unsuccessful and 4837 escaped, leaving 4838 behind, he was sentenced to be publicly executed. When 4837 found him dead he took the holy banana and ran

Monkey 4837 has decided to hide the holy banana in a very well hidden place inside of his new house that he purchased. That house had a panic room that can only be unlocked with a code that he set up, and monkey 4837 decided to hide the holy banana in the panic room.

Everything was fine since then, he continued to live his life of crime stealing various jewels and selling them on the black market, while the holy banana was presumably safe from anyone. But then the celestial monkeys awoken, and erased any trace of monkey 4837 simply due to him stealing the holy banana, a sacred artifact that contains infinite knowledge, its kind of strange why monkey 4837 didn't eat it to gain the said infinite knowledge, maybe there is a reason why...

Monkey 3997 was confused about his place in line. He tried to butt in in front of Monkey 3996, a scuffle ensued and Monkey 3997 fell and hit his head on the sidewalk. He died on the operating table when they tried to relieve the pressure on his brain.

Monkey 3996 was hungry for ice cream, so he, along with monkeys 3995, 3994, and 3993, attempted to tip over an ice cream truck that monkey 3992 was driving. The ice cream truck fell over backwards though, and toppled those four monkeys and fatally injured #3992.

3986 and 3985 were told to guard the holy banana, but 3986 took it and ran. He brought it to a research base in Antarctica to study it. He gave the info back to Siberia and died of a stroke, before he did he took a bite out of the holy banana, giving him infinite knowledge. His conciseness was put in a computer turning it into a ai.

Monkey 3985 was executed by the gods for neglecting his duties.
