65daysofstatic: I swallowed hard, like I understood

Kind of a dodgy title I know, but it's totally not a sexual song.

Such an awesome intro

0s: Piano and buzzytronic synth

7s: Strummed electric bass going dee-da, dee da, dee da

13s: Piano replaced by electric guitar (same tune), and whispering hi-hat

With each repeat the guitar tune gets a higher key

26s: Bass gets lower key

38s: Change from electric guitar back to piano

40s: Too many changes to work out what they are, but still works.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

You have excellent taste in music.

I support peace in Israel and Palestine. The governments and people in power on all sides are an absolute disgrace, and their unwillingness to pursue peace is a disservice to the people they are meant to be serving. The status quo is not simply untenable; it is unquestionably unacceptable.

Blutengel proof of an excellent taste in music? Darling, please. Psyclon Nine, Suicide Commando, earlier Wumpscut, Velvet Acid Christ, Jesus Complex, Tactical Sect and KIFOTH are superior to that act.

65daysofstatic is a very interesting band. And since they are a math

rock/post-rock band, later turning more electronic, it only makes sense for their titles to be weird ☐
