Il Porno Star, Shellac.

rockin.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

hold on loosely

38 special

I was listening to the Queen channel on Pandora, and for the second time in the past couple days, it attempted to play that new hit POP (note: not rock, and most certainly not related to queen in any way

but a big sound) song, we are young.

WHY IS IT TRYING TO DO THIS TO ME? When I play the Queen channel I expect to hear some big classic rock hits, most with a Queen influenced or Queen like sound, not modern pop.

oops, song just changed

Man I am surprised at how cool some of the people on this site are music wise. I used to just hang out at 4chan when the music board there didn't suck and almost every other music board I checked out at the time was awful.

I'm listening to Laddio Bolocko right now
