probably from TNO tbh, I think the recent updates focused on the nazbol post-Soviet factions and we all know just how many people take inspiration from TNO there are on this site.

What's TNO? I've heard it mentioned a couple times in this thread but nobody's explained what it is.

This nation is not affiliated with The New Order: Last Days of Europe or its incarnation of Burgundy.

The New Order. Alt-hist mod for HOI4. Nazis win but predictably fuck shit up immediately afterwards. Notable for doing actually good dystopian writing, turning the game into an enjoyable slog as a result, bringing to light a number of cursed batshit-insane ideologies, coming up with a pretty cool post-Soviet Russian landscape with said cursed batshit ideologies, and having the second-most fucking annoying fandom to exist outside of places where fucking annoying fandoms tend to gather, short of JoJo. Said fandom is notable for spamming WHOLESOME 100 X LEADER MOMENT and its variants on superevents' (essentially ingame events in the mod that take place on a larger scale) source music videos - ([citation 1](#)), ([citation 2](#)), ([citation 3](#)) - just scroll down to the comments - and for doxxing a dev and trying to get her to commit suicide over the horrendous dual crimes of... being trans and trying to get some of her own dev updates related to the mod out quicker.

We need more nations that actively engage in the "lesser evil" discussion.

Actively existing between the lines of good and evil to survive instead of existing as one or the other. I personally love the Ferengi Philosophy.

Morally I consider this nation to be neutral. It balances opposing forces of human society in a delicate equilibrium of yin and yang. Thus expressing its true form.

Another reason why I really love writing about characters. Portraying political ideologies and nations in a neutral way is difficult. With characters it's much more doable.

This isn't a cliché but isn't it weird how there's a board *called* NationStates on the NationStates Forum? I know it's existence/name is basically an artifact from when it was literally the board for *any* NationStates-related stuff outside of the United Nations (RP, regional recruitment, etc.) in the early days of the board but it's still kinda weird when you think about it.

I also feel like it should be renamed. International Incidents is pretty clearly for disputes, wars, etc. But The Nationstates subforum should be renamed something different so people can tell it's mostly for diplomacy, social gatherings, and things that don't involve war or international disputes.

Honestly I don't think that'll ever happen because the mods are pretty insistent than any type of non-economic and non-sports RP can go in either NS or II. Which then begs the question of "Why have two separate boards then if they're interchangeable (in their view)?" but I suppose it's just a forum subculture thing. You can do war RPs in NS and you can do, say, an international conference in II but you'll probably get more activity if you swap it around.

tbf the megacorp faction is already in the lore, but... yes, boutta fuckin drop Mr. Twinky Femboy's Mercantilist East Indies Trading Company IN SPACE soon.

it's not really a *megacorp* per se because space weeds all about "sort-of following these trends but logically adapting them to a setting with very particular material conditions the tropes couldn't persist in" but yes.

it's already been mentioned several times in the lore, too. well, twice, on a note page and a page no one reads. but yes, there is one coming soon, and i might just push back CoEP to shove VHD ahead in the dev schedule since i'm in no mood to write about Puritans on drugs.
