I have no middle ground with lore development. It's either I do them quickly, or I took forever to do a minor update.

After a long hiatus, I finished 2 full lore (and 1 rework) for The Sixty. All under 3 hours...

TBH, I nerfed the abilities of my super-OP FTL nation...because the Tohorinese are too fucking insane to actually do anything with their genius and love over-complicated plots *that make them defeat themselves*. But what else can one expect from characters I based from cheap 20th Century comic books and Toho *Godzilla* movies?

I think slowFTL can work well if you want to make travelling between stars feel like travelling to other continents during the age of exploration, where a trip from Europe to America took a month. Fast FTL is for when travelling to other stars is more for akin to a plane-ride, where the trip will at most take a day. It kinda depends on what kind of setting you want to make.

Deng gang is not a meme, nor is it a shitpost. It is the genuine, unironic belief that the People's Republic of China will continue to submit the Earth to the glorious spires of industry under the five year plan, as westoids seethe at the crushing of TERRORIST INSURGENCIES in Uyghuristan, Tibet, and Hong Kong. The paper tiger of western imperialism will fold in time for RED IMPERIALISM to subject the puny liberals to eternal oppression.

Chairman Xi Jinping unquestionably has the mandate of heaven, and I will not tolerate anyone who says otherwise.

Fake. Mao Zedong's vision is the only true path for China, and anything after him is revisionism. Soon, the Chinese government will realign itself to real Maoism and reject the revisions of the revisionists. Angry mobs of properly educated young Red Guards will destroy all traces of the old order and a new CULTURAL REVOLUTION will revitalize China and make it a true hyperpower in the way the "deng gang" can only dream of. Imperialism is a symptom of the old order, what Neo-Maoist Zhongguo will be doing to the west will go beyond mere imperialism and eternal oppression.

Xi Jinping is cool though, since he is more like Mao than the western puny leaders.

Again, puny crypto-westoid logic that suggests we are "Maoists" or "Dengists" for any ideological goal or cultural revolution. This is simply not the case. Deng gang exists for the following purposes:

1. To feed the eternal meat grinder.
2. To perpetuate the forces of the line.

Anything other than these sacred objectives necessarily becomes cringe. Mao was, of course, massively based and a true gamer. His actions in the Great Leap Forward and Cultural Revolution necessarily fed the eternal meat grinder, something that TRUE Communism has been very good at doing. For this purpose, we in Deng gang are Communists: but only insofar that it feeds the meat grinder and pushes forth THE LINE. Deng and his successors have done so, even more efficiently than Mao; thusly, we are Dengists, not Maoists.

Trying to appeal against the "old order" or "imperialism", in this sense, is just stupid. I don't care whether it's old or new, all I care is that people are being oppressed. 🤔
