Just a space corporatocracy

An Imperial Monarchy spanning most of Central Europe and Dacia set in the early-14th century, greatly fearing that the Mongols may return

Sometimes I read my name as Hungary-Wallonia

This experimental nation will likely be ditched soon

7/10 looks like a cross between Egypt and Equatorial Guinea

A holier Austrian Empire which adopted the March Constituion, stopping the fall of the empire

The reason we are Holy, is because a complicated series of events in Austrian history, that I haven't written down yet, because I'm not at that part of my history yet, caused the Catholic Church to be moved to Vienna instead of Rome
