Lana Del Rey - Born to die

“

Feet don't fail me now  
Take me to the finish line  
Oh my heart it breaks every step that I take  
But I'm hoping at the gates,  
They'll tell me that you're mine

Walking through the city streets  
Is it by mistake or design?  
I feel so alone on the Friday nights  
Can you make it feel like home, if I tell you you're mine?  
It's like I told you honey

Don't make me sad, don't make me cry  
Sometimes love is not enough and the road gets tough  
I don't know why  
Keep making me laugh, let's go get high  
The road is long, we carry on  
Try to have fun in the meantime

Come and take a walk on the wild side  
Let me kiss you hard in the pouring rain  
You like your girls insane  
Choose your last words  
This is the last time  
Cause you and I, we were born to die

Shostakovich - *Symphony No.7 In C Major Op. 60 "Leningrad": War, Allegretto*

**CVT Temp wrote:**  
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Wardruna - Naudir

This band always seems to grow on me. Every time I listen to them I am reminded how good they are. Because at first when I listened to their newest album (From like 2013), I wasn't quite digging it. But I think I just listened to it at the wrong time because it is as great as their first, if not better.
