I'm not gonna link to any of this stuff, but he made a petition to shut down NS because it was full of 'cyber-bullies and perverts' who ban anyone who disagree with them and they need to 'shut down the evil site for good', his DeviantArt was full of comparisons to NS mods to Nazis and acting as if Jennifer Government was somehow comparable to Mein Kampf, and he acted as if anyone in the comments on his DA who tried to get him to shut up and understand *why* he was banned from this site were bullies sent by NationStates to harass him off-site.

Also, I can't find it right now (and I don't want to) but I swear there was a post by a mod here a few years ago when Hataria returned to spam the boards about how 'NS MODS BULLY AUTISTIC USERS!!' or something where the mod revealed that Hataria had found their Facebook profile and they and their family had harassed them on it for 'bullying' him

yeah, that's... actually kind of a tragic way to go out, I'd say.

I mean I do that, but can you blame me? The world is so fucked up because of COVID, let me have my dumb fictional nations have some semblance of normalcy.

The real cliché is nations that got COVID under control within a month or have never had any COVID cases despite the fact that COVID exists in their canon. This is probably wish-fulfillment though.

Part of the rework I'm writing for this nation involves it screwing up COVID to an even greater extent than OTL America did. (Though not to a ridiculous extent; the death toll is still under a million)

The heir to the throne tries to assassinate her parents in order to prematurely inherit and fix the nation's COVID policy, which puts the Emperor in a coma and starts a succession crisis in which most of the major royals try to claim the throne for themselves. (But since they don't want to openly start a civil war over it, they all gather as much influence as they can and try to assassinate the other claimants.)

COVID-19 was really useful to those of us who wanted to shake things up in our nations. We live in interesting times.

The American Empire is a socially progressive absolute monarchy run by the heirs of Emperor Norton. It started off at MT but has rapidly advanced to PMT through interdimensional travel. All NSstats are used, except for tax rate and population. Factbooks are currently under reconstruction.

The Dandere types are my go to, those seem like the type that you can hug without any negative outbursts of energy of some type.

I dunno, *Kuudere* would be uncanny IRL, or at least just awkward. I jokingly mentioned Ed Kemper because of the *Mindhunter* show, and the same eerie calmness is something I wanna replicate. Then again I just wanna make it clear that Montse is just barely normal. Yandere wouldn't do justice though, as she isn't possessive. She's just got...issues.

New Zealand as well as Australia, Vietnam, and South Korea had rather decent responses. It's not hard to imagine a unitary government with strong popular backing shutting down everything for an extended period and removing most if not all cases.

I'm not going to disagree but when you have someone trying to RP very not PG-13 topics as well as constantly going into the military realism thread to ask if all gay military units are better because they're fighting alongside their lovers or if officers bringing their mistresses on deployment increases morale they're going to get a reputation.
