Their world is the same as the real world. They are straddled between Iraq and Iran, at the foot of the Zagros mountains, and speak their own endemic (either Semitic or Indo-Aryan) language called Elamite! Very interesting, 10/10

Elamite is neither Semitic nor Indo-Iranian, but actually a language isolate native to the region — thanks for your interest though!

Immigration to Ceyesca from certain countries is more difficult than from other countries. Immigrating includes a fee of 100-300 Ceyesque franc for all countries, and an immigration test ranging in hardness. The tests and fees are not meant to be racist or biased, but rather as a way to help prevent epidemics and unfortunate events.

They have a heavily stratified social hierarchy, and all but the lords need permission from their local lords to change residence. I find myself curious as to whether the ethnic split holds across social classes.

Their state philosophy takes great interest to emphasizing the advancement of the sciences and technologies; obviously as a means to further their influence on both internal and external parties.

While the Raqyat priestly class is barred from all ruling positions, it is the only class other than the uppermost Hattayet that is permitted to lead native temples. Presumably, "ordinary" priests are forbidden by their religion from engaging in worldly politics, while royals are seen as divinely blessed, thus granting them the spiritual authority to hold dergy positions.

Their domain includes all of Real Life Contiguous United States, Canada, the Baja Californias, Hawaii, Puerto Rico, [American] Virgin Islands, and Greenland, for some reason. They boast a population of 140-off million, which is -while not very high for a modern age nation with such territory- impressive given they exist on a nuclear wasteland.

Unlike older Frisian states that were pagan, the Kingdom of Frisia is a catholic monarchy with territory in Northwestern Europe as well as in the modern UK. They speak their own language, Frisian, and have a realistic population 450,000 !

Majapahit was originally a kingdom centered around a small village in the timberland region of Tarik, Eastern Java around late 1200s. It did not become an Empire until mid 14th century, at which point it controlled most of the Nusantara archipelago. Modern Majapahit controls the OTL territories of Malaysia, Brunei, East Timor, Singapore, Papua New Guinea, and Indonesia.
