In our nation's lore they made up the spearhead of Operation Panzerfaust III, a decisive counteroffensive against NATO forces during the early phases of Operation Desert Storm.

And being unskilled foreign volunteers armed with hand-me down Kar98s and AR-15s, took the brunt of the NATO offensive and wore them down with a whole bunch of human wave offensives (Making up a total of 37% of all Gulf war casualties in our timeline! Heyyyy!) along the Saudi border as Stratusian Regular Infantry were being scrambled to the line by the SROm. T-86s were extensively and generously "donated" by the government to the volunteers so they would have a semblance of a "Fighting chance" against coalition forces.

Ultimately that's why Saudi Arabia is secular in our timeline! (and Kuwait doesn't exist anymore) On a separate note, I'll be making an RP about this soon...
