Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.

They have a big, cool looking city.

The Creeping Barrage is the name given to a method of firing artillery. At the beginning of Trench Warfare the basic tactic was to fire lots of artillery at enemy trenches for a sustained period of time and to stop firing just before the infantry attacked. However this method wasn't very successful as the German had built strong bunkers and were able to man the defences in the time between the bombardment ending and the infantry getting to the trenches. A solution to the problem of the time lag between the bombardment and the arrival of the infantry was to change the way that the artillery was fired. Instead of just aiming at the same target the creeping barrage moved forward at a prearranged pace.

They are a nation proud of their World Assembly membership. Therefore, without looking at other things, I would assume that they are a democratic nation based on the fact that they subscribe to the WA's democratic system.
