Sitz, defacto leader of expeditionary team "Kite Flyers"

So what am I looking at. Because I believe that I'm looking at someone who is not a very good. You're just another authoritarian on the long list of authoritarians across the multiverse. Probably because as a child you were shipped to some military school where they stonped a militarist mindset in your head. When you were 16, you fought in an overseas operation and got your first kill. Which is... something. Might explain a few things. At 16, human brains are still in development. It definitely has warped your morality. I would know, because my time in the Multiverse War has done that to me. But enough about me. This is a bio about you after all.

You became a diver at the navy. You then, without hesitation mind you, joined another war. Where you brutally drowned your enemies to "intimidate" your enemies. What a stupid excuse. You didn't do it because it gave you a tactical advantage, you did it because you liked it. I find it hard to believe that you can kill someone like that without feeling a bit of

remorse. You shouldn't be ashamed of your father, but of yourself.

A large counter-offensive began, and your country somehow managed to go from the brink of defeat, to a white peace. Your king bankrupted the country and murdered millions of civilians. Or at least, that's the impression I got from this bio.

After the war was over, the king died, and you became the queen after the military forced your brother to abstain the throne. After your rise to power, you eroded any semblance of democracy that the country has. You turned the country into a defacto military-backed absolutist regime. One that reminds me a bit too much of the Hegemony.

Its 2027, almost twenty years ago, a storage-facility with mysterious machines was found on the moon. These machines seemed to have the ability to open portals to other dimensions. In response to this, the United Nations created the UNEEU, or United Nations Extra-Universal Exploration Unit to see what the multiverse has for them, exposing Earth to many opportunities and dangers.

"I have met many a fierce ruler in my lifetime. I've seen monarchs and dictators come and go, but this one stands out to me as a shining example of how power can greatly corrupt one should it fall into the wrong hands. It is a logical miracle how, despite Tove's endless brutality and usage of outright violence and force against her enemies, she still manages to keep her nation stable and functioning, having completely disregarded the common man in

favour of a feudalistic dedication to her armed forces, as they are the only ones who have her wholehearted support and attention...

...but to what end? Is it out of nationalism, to support their monarchy out of misplaced patriotism? To sustain themselves at a higher rate of pay than what most Kjalaran commoners could ever dream of earning? Or is it, as I suspect, out of fear of reprisal and punishment? This tyranny could be just barely excused by the environment of war she grew up in, and the potential traumas involved with it, but instead it is almost merely for her own personal gain, under the false pretense of bringing 'greatness' to her family name, and a bafflingly false sense of security, under her own belief alone that violence and fear, if used in copious amounts, can wrangle her nation completely under her control, yet she disregards that, instead of making her civilian populace grovel before her feet, it may determine them to dissent against their nation. And with the threat of a horrendous death looming over them, it will drive them to see their actions through to the end. Perhaps she might see that her own armed forces may stop supporting her as soon as they see their own families and friends in the civilian populace being mistreated in such a manner, or at the very least run out of economic support due to her predictably brutish responses to blockades and sanctions and her general disregard for economic policy in favour of a 'total war' economy (that makes me question how they even function as a society in the first place) which will only further drive the world's leaders to bring down harsher penalties until an inevitable intervention by powers in a coalition greater than her, and begin to think for themselves as for what kind of a society they live in. I know not of Kjalaran culture or its workings, but to say that any fear-centric culture who relies on what I shall call the 'bank of blood' will be comparable to a spider; a frightening creature that intimidates even the strongest people world-wide at the understanding it can be venomous, painful and deadly with a single bite, but one that can also be easily subdued with a well-placed slap and a breath of courage.

But of all things, the one factor that astounds me is her personal acts of brutality, bringing herself to gleefully execute any potential opposition or otherwise utmost minor threats to her power through *drowning* of all things, including shameful acts of instigating pogroms and engaging in violence to the point the world is actively posturing against her, with little to no support for her regime. This embracing of violence only brings honor and power to her royal house in her own mind, when in reality many would see her and her family in no better light than that of serial killers and street hoodlums who use this level of fear to assert their dominance upon others they consider 'the weak'. The only reason regimes like that even last for such amounts of time is attributed to the greater powers fearing what they would have to endure if they were to confront such a group, but once that fear dissolves, by one method or another, then the tenderness beneath that hardened shell of armour is exposed, and the regime eventually succumbs to the wounds of the gradual punctures within... a death slower and more horrendous than anything she could ever dream of in such an intriguingly abhorrent mind of madness.

I have a very negative opinion of her, seeing as she is as personally detestable as the policy of fear she embraces, with little to no viable excuses for it, showing an absolute lack of guilt for her own personal actions and therefore bears only the slimmest of chances of redemption, but this does not justify any further conflict or bring me to a point of hatred. She still has all the time in her reign to turn things around, make amends with those she has wronged and prove her true righteousness, so my only advice, for now, will be that when she finds a fly on a part of her body I will not dare bring myself to mention, only then will she learn that violence is not the answer to everything."

the support of your Althing, and you rewarded them by neutering their capacity to make policy. You racked in a goodly amount of combat experience, which is also respectable. That said, for dreaming about work in finance, you have almost no sense of resource management and logistics! Violence can only solve problems when you can actually afford to train and supply soldiers so they can take to the field of battle. That is difficult to do in a competitive manner if you're trying to break embargoes with military action. A raider mentality like that would only serve to unite your enemies against you even further. There is a place for brute force, but that does not mean brute force has a place everywhere. There are times when finesse gets the job done, and anything else is worse than doing nothing. I see little finesse in your actions, and I see even less restraint. I cannot respect that." -[Cala Azzakrat Deep Kraken](#)

Yeah, "Mature" because she didn't use her capable brain to solve issues with the best solutions that are not based on ideology.
It may sound rude but, that's the hard reality; Most of the smartest politicians in this world use their brains first and ideology is the least of their concerns. There is a reason why political parties doesn't exist in our political system. Just be flexible.

"So, what we have here is a dictator who calls himself such. Funny. I'd call him a revolutionary, perhaps. But at least he's honest about his mission and has dedicated himself to it. It does make me wonder if he seeks to drive up military spending to the point of threatening his neighbors for the sake of economic exploitation despite a collapsing economy thanks to isolation. That has yet to be seen... However, I am curious about how he views the world. And the military. For all I care, he could be just like Mawar, seeking to cut back the military after a few years in office just to lump a massive problem of security onto the lap of the next person, something that I prevented by taking over on behalf of the Green Party. Call me a reactionary, but I'd rather ensure the survival of Gonswanza than allow it to become a vassal state for some other greater power."

Nemias has told me stories about this Laura Ortiz woman, she is probably the most insane person I've given an opinion on. She also seems to be extremely xenophobic which in a South American dictatorship ran by people like her, it doesn't surprise me at all. I don't think I want to visit the earth in her reality as it seems to be a pretty messed up place. Savages like her usually aren't good for diplomacy..... I'm lying I really want to go there and crush the foolish pride she holds, wipe clean the Gonswanzan government, and usher in a new era of sanity within Gonswanza. Possibly replacing her with someone who can still rule but doesn't have the mindset of the brutes who belong strictly in the military.

Melding^[1] on Doctorine^[2] “Chisana Akagi”

She seems to be another one of *those* kinds. Beastly, yet menish^[3]. Even so, I shall keep it out of mind.

A child in all but name, Doctorine Akagi has more brains than she, I daresay, knows how to deal with. I cannot and will not say anything on these orfindings^[4] and technologish^[5] forthstrides^[6] she is said to have come up with—after all, I am a soldier, not a gelearned^[7]. However, what I will say is that no wittenshipper^[8] should be put where a statesman otherwise would. It comes across as ironish^[9] from me, given I myself am a soldier doing a statesman's work, *that much I know*, and thus I will put this tostand^[10] as the outcome of unerstand^[11]—hers as much as mine. Nevertheless, a *child*, no matter how much knowledge she holds or how many speeches^[12] she can speak, should not be doing the work of either.

I know not how one goes from battered child to earning an academish title^[13] in the span of a handful of years, but I shall acknowledge her for bringing herself up into Lady Luck's goodwill. No child should go through what she did, unloved by her father and forsaken by her mother, but it still does happen whether I like it or not. I find myself feeling ruth^[14] for her, as my own daughters are brought to mind. But her foretidely^[15] heartaches do not forgive her *naïveté* as a leader. Believe against having a regering^[16] that upholds the rule of law as much as you would, there shall always come a time when folk fall upon stealing or killing. Believe against crig^[17] as much as you would, there shall always come a time when one must deal in it—and, with Japan seeking to put an end to your upstart separatistish^[18] bewaying^[19], that time is nigh.

Wisdom is earned through mistakes. Time will tell if Doctorine Akagi will earn that wisdom, or fall from where she stands still wet behind the ears.

That is all.

borders or something? You better get
something conquered from yourself or I,
General Onox, will come over and enact
Copyright enforcement. Anyhow, you seem to
belong to the type of republic-kings(Dictators)
that seem to believe themselves to be
'beneficial' to those they stomp upon. What a
laughable fellow you are, seriously, your play
is so easy to see through that I, General Onox,
can see Vire rolling his eyes and being
irritated without him being in the room, noone buys your crap!
Anything else, I, General Onox, can't say anything about, since you didn't write
anything else ya dolthead, order your slaves to write something better."

Since you, Free Paris, got done dirty, I'll give ya a post too.

"Now, to you, as that little wannabe-bad guy's
words are as limited as his mind. I, General
Onox, think you are quite a great man, even if
you are a noble. From what I can read about
your home nation, being a warrior is highly
valued, which I, General Onox, like and you
got your education at a military academy? Is
that an euphemism for the frontline or are
there actual academies for that? Wait, you
were sent to the frontline later, so you guys
use Blinstitute strategies to learn about
combat? That is quite interesting. But back to
you, you had a quite destructive career and
survived through a quite fascinating form of
war, being as brutal as it throughout it, something I, General Onox, heavily

approve. And during your last part of your career, you both caused massive famines and bloodily beat down rebellions, which is wonderful, even if your smallminded colleagues couldn't see that and also your attitude towards that singular god you guys have there is glorious, the divine slackers should be put in front of cars, Gyahahahaha... Wait a moment, you are already dead? Ah, I, General Onox, understand, you are a ghost at the moment, how else can you write something, anyhow, you are welcome to hang out at the... Uhm... How was the Graveyard Area called again? Anyhow, there. Have a nice afterlife!"

General Onox? Would totally throw roses at him at a tournament! No, seriously that man? He is awesome. I like him. He is just an amalgamation of positive attributes the best of all probably being that he does not give a damn about what I or others thing about him or the legions. He does what he likes and you are free to try to stop him. If you fail? Tough luck. I must say I am also impressed by his close resemblance of the jøtnar, the giants of old. It is interesting to see that he lost against the coalition and is a smart enough leader to understand that you win some and you lose some but the important thing is that you keep going. That sets him apart from other leaders which never had to overcome a challenge. That makes him a particularly great political leader as well as a good military leader. I think there is nothing he cannot achieve if he really focuses on an objective he will be successful. I hope that he will have many a drink and that peace will never come to his country.

It's a shame she opposes me, we have so much in common. She has called me many things: Bourgeois, imperialist. And once even had the nerve to call me fascist, as though I haven't sent armies to kill many fascist groups in huffmania. It's a shame that we have to be enemies really. We both aspire for the same things in the end, just with different systems

While I will ignore the fact that the leader of their nation is a mythical being, which already makes me feel incredibly superstitious of the article about said individual. That being said, however, I do not really have an issue with Canary, himself. If he *really* is a so-called 'Giant' perhaps the men and women of the OSD (Orlesian Science Division) can study him. Perhaps learn more of his genetics, and find out why he is so... Large. Perhaps we would be able to use said research to come up with our own 'Giants' for military use. You never know, sparing the lives of our own men in the use of 'mythical beasts' sounds like a great idea. To divert from the topic of science, now, I will go further into detail on Canary, himself. Like the great Alistair Torwin of old, he is a revolutionary, or so it seems. He, alike those within 'The Final Revolution' toppled a tyrant to make a name for themselves and defeat the so-called 'Ice Queen Lazika.' He toppled her, of course, over an impressive time-span of six years. What happened exactly during those six years, we do not yet know, but I imagine it was quite an 'exciting' time for his armies. I digress, it is stated that he is a great military commander, but I do not know much of his military history. Is this just a biased article? Or does he actually have true martial skills? I only suppose time will tell, as the information is not currently available. Lastly, while his regime seemed to be rather solid after Canary and his supporters took control, they still needed assistance, soon, a Zoigaian delegate named 'Nemias' visited the region, and assisted Canary under one condition, to forma union together. Whether this means it is by 'matrimony' or a political union, I do not know. But Canary seems to be a somewhat competent ruler, and I will be curious to see his future endeavors alongside this 'Nemias'." - GOO.</p> <p>Francois S. Let's see the information about their leader... Oh, they aren't properly documented. I will just generalized my opinion based on their government. I see where this is going, I like their technocracy and their stances against traditionality and religiousness, though it seems like they would arrest religious people just because they are religious and I think this one example differentiate our interpretation to a seemingly similar stance. We just arrest religious maniacs if they're politically active or extreme, though I can't say much about the leader because maybe he is secretive(?)
