For me it's "Stone Cold Crazy" by Queen but that's like one of the only thrash metal songs I listened to, so yeah.

Stone Cold Crazy was a huge influence yes, but Hit the Lights was the first song on the first *purely* thrash metal album

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Metallica - ...And Justice for All

*The ultimate in vanity  
Exploiting their supremacy  
I can't believe the things you say  
I can't believe, I can't believe the price you pay*

*Nothing can save you*

*Justice is lost, justice is raped, justice is gone  
Pulling your strings, justice is done  
Seeking no truth, winning is all  
Find it so grim, so true, so real*

Progressive thrash metal from 1988.

Metallica - One

*Darkness imprisoning me  
All that I see, absolute horror  
I cannot live, I cannot die  
Trapped in myself, body my holding cell*

*Landmine has taken my sight  
Taken my speech, taken my hearing  
Taken my arms, taken my legs, taken my soul  
Left me with life in hell*
