4/10 the coloration keeps it low, but the crown heraldry bumps it up for me.

This person does not look like he knows what true evil is. His people have never stepped foot into these wildlands. They have never had to experience the daily misery of constant running from animals, barely fit to be called people, who refuse to give up until they catch you, and then butcher, then eat you. These are not normal people. Their flesh has become accustomed to the extremes in this vast wilderness. They wear wolf skins in the scorching desert. They wear nothing in the deepest winter. They will sprint for hundreds of miles whilst tracking the smell of their victim's blood.

You do not know evil. You only know bliss. Be blessed, for you country could be as mine, in which you could not survive...

Not evil. I think if you not use the ripple effect the flag will be displayed as a shield without the black border. I had to lose the ripple effect for the animation to be working. Alas, SUCCESS! Nice. Looks great.
