When It's Over- Sugar Ray

I swear, this song was in some movie around 10 years ago. The movie had some kid with a watch that he could use to travel through time, and fell in love with a girl from future, and some other stuff. I never saw it, since I was really young when it came out. I just wish I knew what the movie was called. I checked this song's and the band's wiki pages. Could it be that I'm wrong?

Does anyone else remember that movie I'm trying to describe?  
Anyone with the name of the movie?

Chasing Pavements- Adele

I just realized that I heard this song and saw the video while watching MTV a couple years ago. I thought that video was so strange when I first saw it.
