Bruno Mars - Gorilla

Founded: 2480

Current year: 5001

Magic: Non-negotiable

Ponies: Yes, occasionally

Tech levels incompatible? Then kick me out of the thread, because if you RP with me you accept my tech.

Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
