Monkey 2461 was possessed by monkey 2462, even though monkey 2462 has no soul.

There were 2460 monkeys jumping on a bed. One fell off and bumped his head. Mother called the doctor, and the doctor said, "This little monkey is dead."

Monkey 2450 drank some poisoned wine, drank it all, said they were fine. But that wasn't enough. Purishkevich had to shoot them, 'till they were dead.

Monkey 2448 was on the grassy knoll when JFK was shot. Alas, he was considered a 'loose end', and dealt with accordingly.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
