Boards of Canada-An Eagle In Your Mind

'Murica

Album gets rated 3rd for the year of 1998 as the best albums of the year or whatever RYM rating scale is.

Best and most voted on to get that high, or something.

With that one band, or in general? I know I got to the point where I'm like "Meh, I'd rather listen to multiple bands then specifically listen to one band for 100+ songs", and deleted a entire band that had 160 songs, got rid of most of the hip-hop I had (Because It'll take me forever to get around to hip-hop period), and so on. I might pop up albums from them here and there, though, when i want to listen again. Just....I'd rather go through a bunch of stuff overall than sit there plowing through the same band for so long. Especially with how I'm doing things in general now.

In general, only got 2 Dawn of Winter songs. I'm not sure if they even have 100+ songs.
