But hey, I've been mostly enjoying life, so whatever...

I had plans to start when the year 2012 started. My "New Years Resolution". Was a load of bullshit because I didn't accomplish anything. This year, where I decided NOT to make dumb resolutions, I've accomplished more, even if it still doesn't involve doing the GED.

Enjoying life is way more useful and fulfilling than this school bullshit; I envy not having to worry about that stuff. ☐

I thought about just getting my GED so I could be done with this, but...eh, parents were starting to pressure me into looking for a job and shit, plus studying for the GED. Would have basically been trading one headache for another, and I think I prefer this one. ☐

Pretty much what happens with my work; I do well once I muster up the motivation to get it done. ☐

Look mommy, there is an airplane up in the sky!

Did you see the frightened ones?

Did you hear the falling bombs?

Did you ever wonder why we had to run for shelter with the promise of a brave new world that fell beneath the deep blue sky?

Did you see the frightened ones?

Did you hear the falling bombs?

The flames are all long gone

But the pain lingers on

Personally my third favorite band after Queen and Rush. Have all the albums but HAARP, Hullabaloo, and Showbiz, though I have listened through all of them. My favorite is oddly The Resistance, but it was my first Muse album, as well as the first album that really made me look into modern music (I was a bit of a classic rock supremacist, and not nearly educated enough about any of it), so I might be a bit biased. ☐

P.s. Thanks again Corrian, I still owe you one ☐

The Resistance would probably be my first too, but Black Holes and Revelations is on the throne for me.
