They've been here for a few years now but still have such a low post count but their total post count (including F7 posts) is in the 800s and they have been around F7 a lot lately.

So I'll say 'becoming known in F7 but pretty much unknown outside of F7'

Haven't seen this nation before. This is the first time I've heard or seen them.

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera  
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;  
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Humanity First!

AN seems to have a case of wrong-threaditis, so I'll do both AN and AAN.

Three Isles: Good post count, been here for a few years, in general seems well known. 7/10.

Stella Nera: More posts in F7 than anywhere else, likely more known for the constant anti-robot rights stuff. I'll put you a peg lower, however, at 6/10.
