Triptykon - Tree Of Suffocating Souls

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Title: Lights go out

Artist: Wildstylez ft. Cimo Fränkel

Genre: Hardstyle

*Until the lights go out
Would we continue to love
Until the lights go out?
Could we still make it work
Until the lights go out?
If we do the best we can, will it be enough
Until the lights go out?
Will we continue to love
Until the lights go out?*
