As the Moon is destroyed, a picture slowly moves back to Earth. Somehow it doesn't burn, maybe it's made of some new plastic they keep advertising. The picture is of his wife and daughter he never knew he had.

Man walks away from the missile launch site, saddened that he destroyed the Moon, where so many people were located. But a miracle happens - his wife and daughter made it to Earth! He has high spirits!

Turns out this moon is only one of many, so most of humanity survived...

Man and the now middle-aged Miku (she spends part of her time on Earth and about an equal part in cyberspace, so she ages about half as fast in the long term) seek to avenge Previous Man, and they decide to attack Max Barry's home.

Before they can do that though, the job is done for them by a fragment of the destroyed moon. Man is nearly killed by the impact, and Miku takes him to a hospital.

Man then decides, since Miku is "Nova 01", that "Novus 00" was Stephen Hawking. However, the new president of the nation that elected him 48 years earlier disagrees with that notion.

That nation's officials decide to take out Man and Miku's home; they are all deafened by ~~*insert random musical effect from Miku here*~~ transcendence into cyberspace, and when they launch a missile at the house it goes through a portal and destroys IPA address 91.94.233.4. This releases a bunch of creepers into the government building of the nation. D'oh!

Miku then rescues Man, as that was only one bad IPA address, and the indignity of memes could never annul such a legendary relationship! Man (now Man 1) then meets the new man (Man 2), who at a moment's notice destroys a server full of doge memes. The IPA address is redirected to something more meaningful.

They then decide to go fishing together for no particular reason.

"The internet can be incredibly stupid and hostile at times. More than once I have been forced to destroy servers in the real world to prevent toxicity from going rampant around cyberspace. Don't get discouraged by this, Man 1." ~Hacune Miku

The nation of N!an!atoOutya, which attacked Man 1's home and attempted to arrest Miku a while ago, decides to recruit Man 3 (the new man introduced, man 2 fell into the river in Lego City). Man 3 declines and flees the nation, but gets shot down by a N!an!atoOutya missile and lands on Man 1's island. He and Miku then send man 3 out to a hospital where he becomes a cyborg.

Thus begins the მეცნიერების Man 3's next Tiktok video involves Miku failing at speaking Georgian; all the dislikes come from N!an!atoOutya.

Man then discovers Tunisia borders N!an!atoOutya.

Date: 07/19/2070

Man plans the initial assault on the N!an!atoOutya government, which has committed great crimes against humanity and attempted to sabotage the conquest of cyberspace.

Man discovers that Miku and her 500+ comrades have already begun their attack.

The smell of whatever "pot" is repulses the N!an!atoOutya people, so Man is dismissed to Man 1's place.
