*Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. ## Isis-Dulcinea

Not sure I like this Isis album as much as their older stuff, either. Which is kinda why I have it as one of the 2 I'm re-listening to last, because they're commonly considered the weakest.

everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there
