Originally an insurrection against [Aision](#), the Eutaxis were driven off in 2007. However, eventually, they established a totalitarian technocratic rogue nation known as the "Protectorate of the Eutaxis" in their Mexican exile.

Kinda looking like they want to zap someone, or throw someone into the cogs of a machine.

Captcha stomped on by Valentijn, then lasered by Clarissa, snapped out of existence by Gwen, only to be brought back by Jolyn to shoot it 16 times.

3/10 just an atom

Note: Many factbooks are in a constant state of WIP or being considered for entire rework or deletion

Welcome to The Alpes a Septentrionali Imperium, a nation where I brutalize and adapt Latin and French History to my needs to get my Ultraroyalist Absolutist French Monarchy with a vaguely French-sounding fictional royal family to work.

Don't ask about the flag, it has something to do with RMB RP that I'm involved with.

A very imperialistic design. 9/10. If the white fields were black, you'd have your 10.
