#### /reserved DEFINITION:

To reserve a post as to prevent being ninja'd. This is especially useful for having posts that may take effort or a good portion of time to make, as there is a greater chance of such things being ninja'd than a slash and a word. Only practical in some threads compared to others. The idea is to put /reserved first and edit it once you have a proper answer. As such, you are not ninja'd. BN will do you as long as you eventually edit your /reserved into a proper post.

How does it feel losing the capital to us?

How about losing to us in development even without starting from almost nothing?

How about being known overseas only because of your name?

How about being known by virtually nobody despite being the capital?

How about constantly being raided in ancient times?

How about having basically no history?

lol

Greetings.
