So will anyone else periodically cross-check elements of their nation's lore and make sure that it's consistent with other elements of their lore or is that just me?

Don't have an overarching schema per say but I habitually check the dates I set for taking warships in and out of service on a freeware naval simulator that I have. When doing work on my fictional navies ofc.

**UJ wrote:**

If a character needs meaningful flaws to not be a Mary Sue/Gary Stu, and being a Mary Sue is a major character flaw, are Mary Sues then not indeed deep and flawed characters?

Can there be a good Mary Sue character? For example, a character that everyone likes *because* they're so nice and strong and don't have any major flaws? Most likely not a serious character but nonetheless.

Can a character go in and out if being a Mary Sue? Overcoming all their flaws, then getting new ones, then getting over those, etc

Anyways I really think there's too many boring political spergs on NS like "America but it's ruled by a monarch" or "slightly more left leaning Britain" or whatever

Idk maybe I'm just sick of seeing boring liberal democracies and psychotic utopia/dystopia dictatorships. Like you can find some genuinely interesting ideas and talented writing on NS but god damn I'd there isn't a lot of FFT super empire #57994378 and real nation except for one political or religious change. Like I don't need excellent writing but like a semi-original idea every now and then is nice. Something that I won't forget in 5-10 seconds y'know

Though that's probably just stating the obvious I guess

Especially if the democracy leans too much on the "extremely ideal" scale  
I'm just democratic Russia 🤔

In the name of Allah: How hard is it to not go "well in my honest opinion..." on a report thread?

Think it's about time for people to bring back putting MODS ONLY in their thread titles

I don't go on report threads since the person being reported lashes out and it ends up being a toxicity hotbed

But then how will people defend using slurs against Muslims under the logic of not wanting to use Arabic words when speaking English?

Republic of Dayganistan

A secular, Tajik dominated state in Central Asia which has experienced 40 years of democratic backsliding. NS stats are NOT used.

Honestly I love reading report threads if no other reason than the inevitable mod smackdowns in the ones that go on for multiple posts of people trying to 'defend' themselves or even continuing their argument.

People in NSG who clearly have abhorrent views and are watering them down so as not to get banned. Luckily these people inevitably tend to slip up.

How about people who don't even water down their abhorrent views and are just POS for all to see?

It's always a fun 'game' to try and guess how long it'll be before they get hit with the DOS.

Oooo same!

I hate to admit it, but sometimes the threads are entertaining to read. Makes me feel kind of bad to say it, but no harm, no foul.

Fam, I gotta confess: I legit once went through the *entire* moderation forum and, while I didn't read every thread, I did read every thread that was at least two pages long cuz you know that was gonna be some classic drama or some complete shitstorm.

Think a personal fave of mine was a thread that began with the OP moaning about how 'this site doesn't give freedom of speech to national socialists' and basically devolved into the OP screaming about how 'COMMIES LITERALLY KILLED HUNDREDS AND HUNDREDS OF MILLIONS AND YOU BAN NAZIS JUST BECAUSE OF THE HOLOHOAX???' , accusing the NS mods of being communists, and then finally committing suicide by mod (although I think that was in another thread and not in that thread itself).

I missed that one, though maybe it was either because it was way before my time, or I just could not remember.

The noteworthy one still has to be the kerfuffle between Kannandrick and Freed Lymonia (Lynomia?). I have seriously never seen two people going from 0 to DOS very quickly.

And yes, people could not stop giving opinions in a Moderation thread that is clearly not marked [Q] (not all of them, but some of them you can give some advice even if the best course of action is to wait for an actual mod) or [Discussion]. I actually did it before and got warned for spamming moderation, but that was way back in early 2016. ^^;

Wait, when was that?

This was back in 2015, I only really remember it because of the absurdity of how he got permabanned and his repeated attempts at trying to sneak back in despite it always being so obvious that it was him.

The dude had a very distinct posting style and he'd *always* make an embassy thread with no applications required and joined some anti-democracy RP organization on every one of his ban-evading puppets.
