The Kingdom of the Hills and Rivers

A Kingdom in between everything and everything else. Come see our public beheadings, constant invasions and civil wars, and weird elf people who use trees to spy on us!

Based mostly on ASOIAF lore (and a CK3 playthrough), any discrepancies were made for the sake of me liking something

Really sad your sig flag needs bbcode to work.

Very rich underground society of intelligent Yōkai with human-like personalities, all lead by a nine-tailed-fox kitsune who might be the moon's chosen one.

Past tech, based on some Japanese mythology.

U.S.S. UNITED STATES (CVA-58)
"GONE, BUT NOT FORGOTTEN"

□ □ □ □

Intended as the first of a new class of "supercarriers" for the United States Navy under the administration of President Harry S. Truman. Her design was notorious for lacking an island superstructure and its unconventional deck layout, which would not be seen in the succeeding Forrestal-class.

In 1949, only five days after United States' keel was laid down, she was cancelled by Secretary of Defense Louis A. Johnson as part of a campaign to cut down the naval budget and advance the development of airborne nuclear deterrence via long-range bombers.
